

Script for Video Clip - Quick Search: eBook Search

Use QuickSearch to search for items at all three Reynolds campus libraries including books, articles and videos.

To access QuickSearch, type your search terms in the search box on the library's home page.

Today we are going to search for ZOMBIES.

When the search results screen appears, you'll want to limit your results to type of resource, depending on what you are looking for.

Today I'm looking for an eBook, so I will first choose **BOOKS** from the Limit my Results on the left.

Then I'll click Electronic books.

Let's try this one: How to Draw Zombies: Discover the secrets to drawing, painting, and illustrating the undead

Click the title to see more about the book.

This is a book from the Safari Books Online eBook collection. Safari focuses on books on technology and how-to topics.

Here is the table of contents and more about the book.

From this page I can

Start reading from the beginning by clicking the Start Reading button

Click a chapter to start reading from that chapter

Or I can search this book for a topic I am interested in.

Safari books require an internet connection and can be read on both computers and some mobile devices.
