

Off-Campus Access to the Library Databases

Last updated 5/31/2011.

JSRCC Library provides access to a wide range of licensed databases (e.g., *Academic Search Complete*, *Factiva*, *Opposing Viewpoints*, etc.). You can access these databases from an off-campus location (e.g., home, office, etc.) via an EZ proxy server by providing your **My JSRCC Login** (your Blackboard username & password).

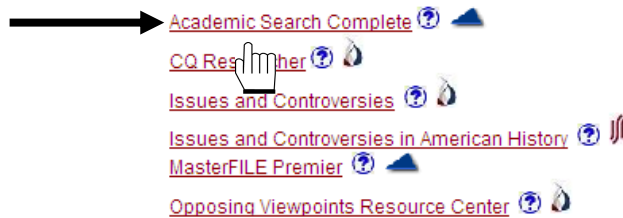

If you need to look up your username and reset your password, go to My JSRCC at:

<https://jsr.my.vccs.edu/jsp/userconfig.jsp>.

1. To access the licensed library databases, go to JSRCC Library homepage at <http://library.reynolds.edu>.
2. From the JSRCC Library home page, you can select from the *Popular Databases* menu on the left - or - you can select the databases tab from the search box in the middle and then select databases by subject area or by title.

3. If you use the *Databases by Subject Area* or *Browse by Database Title* menus, when a list of database titles appears, **click on the name of the database** that you would like to search.

4. The next screen to appear will be a Virginia's Community Colleges login screen. After entering your **MyJSRCC login** (your Blackboard username & password), you'll be connected to the database.
